MOORS THREATEN TO MASSACRE EUROPEANS

Moroccan Tribesmen, Though They Have Temporarily Suspended Operations, Are Menacing the Coast Towns.

The Hearst News Service—

PARIS, Saturday, Aug. 17.—Dispatches from Tangier say that while all is quiet at Casa Blanca and other towns there is a great feeling of uneasiness and apprehension among Europeans owing to the threats of revenge by the natives. The natives in the coast towns are receiving large reinforcements, and it is stated on good authority that they are planning a great attack on Casa Blanca which may be ordered at any moment. The Moors boast that they will drive all foreigners into the sea, then loot and burn the town. The troops at Casa Blanca, it is asserted, are ample enough to cope with any situation, no matter how serious it may be. Officials declare that peace can only be restored by driving the hostile Moors out into the interior. Early in the day a report was received that the natives were marching on Mazagan. Later a dispatch came from Vice-Admiral Philibert, commanding the French squadron, that the officials at Mazagan denied the report. Europeans and Jews are leaving Mazagan as rapidly as possible. A warship has been sent to Magador with orders to take on board women, children and Jews. It is reported that the most powerful of the native chieftains, who threatened to attack Mazagan, has been returned to Casa Blanca.

CALIFORNIA ASKS EXCLUSION OF ORIENTALS

Congressman Hayes Confers With Immigration Commissioner Jenks and Protests Against Entry of Easterners.

The Hearst News Service—

SAN FRANCISCO, Saturday, Aug. 17.—A conference was held yesterday at the Fairmont Hotel between Congressman E. A. Hayes, of the Fifth District of California, and Prof. John W. Jenks, of the immigration commission, upon matters bearing upon the entry of Japanese to the Pacific Coast. At the conference, it is understood, Hayes set forth his own views and those of his constituents in particular and of California in general against the entry of Japanese. Hayes, as the only Pacific Coast representative on the immigration committee of the House, and from his aggressive anti-Oriental utterances on the floor of that body, was well qualified to represent California in the Japanese immigration controversy and while at the conclusion of the conference he would not go into the details of the discussion, he admitted that the invasion of the brown men on the Pacific Coast was a point on which he and Prof. Jenks held the most earnest consultation. "I shall introduce a bill looking to the absolute exclusion of all Asiatic labor from the United States," said Hayes. "It will bear equally against the Japanese, Hindus, Chinese and all races of the Orient whose entrance here and competition with American labor and industry is looking up as a national menace. We had better meet this matter now than twenty years hence when it will become a gigantic race problem, as ugly as possible."

FRENZIED FINANCE BRINGS SORROW TO WOMEN

Fair Sex of Los Angeles Organize Stock Exchange and a Demure Stranger Does Some Profit-Taking.

The Hearst News Service—

LOS ANGELES, Saturday, Aug. 17.—When a number of well-known and well-to-do women of this city organized a woman's stock exchange, exclusively for members of that sex, they were not as careful about whose orders they accepted as they are now. As a result the board of control is vainly searching for a handsome young English woman, who appeared here a month or more ago, and registered as Lady Charlotte McKendry. The stranger had plenty of money and plenty of letters of reference and she was admitted to the stock exchange without question. She was looking for "good stocks" and she found them. Her promises to pay were accepted, and she was permitted to do a big business along such lines as she chose to deal. When she gave an order for stock worth \$2,500 to one broker and stock worth \$1,000 to another, the brokers hastened to do her bidding. When the time came for payment, however, word was received that Lady Charlotte was indisposed and that was the last heard from her except the news that she had disposed of her stock at far below its market value and disappeared. She is still missing.

FINANCIERS HOPE TRUSTS WILL BE LET ALONE

Wall Street Confident That President's Speech at Provincetown, Mass., Tuesday Will Reassure Corporations.

The Hearst News Service—

NEW YORK, Saturday, Aug. 17.—The fact that President Roosevelt, in a speech at Provincetown, Mass., next Tuesday, will make some statements reassuring to the financial community if the present plan is not changed, has been established to the satisfaction of at least a part of Wall Street. The head of one of the largest brokerage houses declared that he had read part of the speech in question and that the President would say that no criminal prosecutions of any corporations or corporation officials are pending, that none is contemplated, and further that all corporations will be given ample time to readjust themselves to the new laws. The statement that Secretary of State Elihu Root and his assistant, Robert Bacon, were almost at sword's point with the President was vehemently reiterated. It was declared that Root had read, on his recent visit to Oyster Bay, the President's forthcoming speech and together with Secretary Taft, had revised it. If the speech is not delivered as revised, it was said, a serious break in the cabinet would come. A peculiarly interesting development of the dike between former Attorney-General Moody and the Chicago & Alton Railroad people is that the rebuilding of the Chicago & Alton was discovered by James R. Garfield when he was chief of the bureau of corporations.

BRITISH RULER TO GET GEM WORTH \$1,000,000

Premier Botha Will Urge the Transvaal Parliament to Buy for King Edward the World's Largest Diamond.

The Hearst News Service—

PRETORIA, Saturday, Aug. 17.—Premier Botha announces that he will introduce a resolution in the Transvaal Parliament providing for the purchase by the government of the Transvaal of the Cullinan diamond, the largest in the world, as a present to King Edward, in token of the loyalty and appreciation of the people of the Transvaal of the bestowal of a constitution on the colony. The Cullinan diamond is valued at \$1,000,000. FREETOWN, Saturday, Aug. 17.—Governor Freetown was inaugurated yesterday. He promised a settlement of the agricultural land question in the interest of the holders of small tracts. Mott Smith qualified as secretary of the territory; A. S. Hartwell, as chief justice of the supreme court, and Judge Ballou as associate justice. Standard Oil Declares Dividend. NEW YORK, Saturday, Aug. 17.—The directors of the Standard Oil Company declared a quarterly dividend of \$1 per share yesterday. This was unchanged from the corresponding quarter last year.

VOTING TODAY ON ANNEXATION OF SUBURBS

Rainier Beach, Atlantic City and Dunlap Are Deciding the Issue and Balloting Is Very Heavy.

The Hearst News Service—

RAINIER BEACH, Dunlap and Atlantic City are voting upon the question of annexation to Greater Seattle today. The voting was heavy this afternoon. The big vote will be cast this evening when the residents, most of whom work in Seattle, return home. The polling places are at Dugdale's Hall, Rainier Beach, and Lakeside Hall, Dunlap. Although the anti-annexationists have shown some organized opposition the last week, and are expected to make a fair showing, there is little fear in the minds of the annexationists that the proposition will be defeated. There are 300 votes at Rainier Beach as compared with 100 at Dunlap, and it is believed the almost unanimous sentiment in favor of consolidation in the former place will overwhelm the opposition vote of the suburb to the north. If the proposition fails to carry, the citizens of Rainier Beach and Atlantic City will at once call another election, leaving Dunlap out of the territory to be absorbed. A meeting which the anti-annexationists called last night at Dugdale's Hall came near breaking up in a riot because of the refusal of Chairman F. X. Hall and the anti-annexationists to allow John W. Roberts of Seattle or any of the annexationists to take the floor. The trouble was started by Col. Robert H. Lindsay, the speaker of the evening, who objected to allowing Roberts on the floor after he had finished his talk. One of the anti-annexationists made a motion to

MARKET OPENING PROVES GREAT SUCCESS

The opening of the Seattle public market was a great success. From early morning until noon thousands of persons with market baskets poured into Pike Place.

The Hearst News Service—

FROM early dawn until noon today thousands of men and women streamed into the public market at Pike Place to prove to the produce growers that the citizens of Seattle are not only willing but anxious to support such a venture. At daylight there were more than fifty eager would-be purchasers on hand and when H. O. Blanche, a farmer from the Renton Junction, drove into the market place with a load of fresh vegetables they swooped down upon his wagon like a flock of
